

## SERGIO TACCHINI WEARS ITS TEAM WITH A NEW TECHNICAL LINE IN THE MOST PRESTIGIOUS TOURNAMENTS.

*Milan, January 2014* - The Australian Open 2014 tennis range embodies Sergio Tacchini's top-of-the-range technical tennis wear.

With its elegant colours and graphics, this is the range that international athletes from the ST team will be wearing when they face their rivals on the Melbourne courts and till Internazionali d'Italia.

Inspired by a 1980s model worn by the likes of Brian Gottfried, the polo features dual band graphics around the armholes, contrast colour sleeves and a line on the collar. It comes in two colourways: red with blue sleeves and a white collar; and white with royal blue sleeves and a navy blue collar.

The shorts are white with a royal blue profile down the leg, and the logos are in contrast colours.

Light, technical materials allow for greater comfort and make it easier to cope with the scorching Australian summer heat.

The tracksuit is made of polycotton, a high-end fabric that combines the fresh soft feel of cotton (on the inside) with the technical performance of polyester (on the outside).

The range also includes a cap and a wristband, plus technical sports socks designed with anti-odour, anti-bacterial and breathable materials.
