

SERGIO TACCHINI PREVIEW AW18: TERRAZZO

The historic sportswear brand Sergio Tacchini presents for AW the Terrazzo capsule collection, using colour to keep memories of the summer alive.

The capsule is inspired by one of the brand's lines from the nineties, copying its volumes, oversize fit, geometries and colour blocking.

"Venetian Terrazzo"; a floor tile made from marble chip and coloured stones is the inspiration behind the microprint which is featured across the styles. Seen in Ancient Greece & Imperial Rome, the textures from the tile have been reworked to create the stand out pattern.

The capsule comprises of a cotton polo shirt in a multicolour microprint, two outerwear garments and a pair of trousers, all in techno fabric. The outerwear features diagonal cuts and blocks of primary colours: red, blue and white, plus royal and a touch of neon yellow.

Terrazzo will be available in top boutiques in Europe from July 2018.
